RR

Dear Prof. Martins,

Thank you for agreeing to evaluate the research project application submitted to the Estonian Research Council. Reviewing the applications will take place online in the Estonian Research Information System ETIS.

Step 1. You can log into ETIS here: [https://www.etis.ee/LogOn?lang=ENG&tabId=tab\\_LogOnETISPassword](https://www.etis.ee/LogOn?lang=ENG&tabId=tab_LogOnETISPassword)

---

## Eesti Teadusinfosüsteem

[www.etis.ee](http://www.etis.ee)

User name: Joao.Martins

Password: Hsrnevagu23

Step 2. You can start by filling in your Authorisation Agreement on the ETIS desktop. Please check that your date of birth (prefilled) is correct, enter your banking information (IBAN or account nr and SWIFT / BIC) and confirm the Agreement. Now you can start doing the review.

Please note that you cannot start the review before you have submitted the Agreement. Once the Agreement is submitted it might take a few minutes before the application and review form will be accessible on your desktop.

Step 3. On “Desktop” there is a tab “Reviewing” where all the applications to be reviewed are stored. Open an application by clicking on it.

Step 4. Read the application and enter your review on tab “Review”.

Please save your work regularly, don't let the system idle too long. If you have ETIS in different tabs open, please be careful to save your work in the correct tab.

Step 5. In order to submit your review, please click on “Confirm”.  
If you need to make any changes in your review, please contact your coordinator.

In case you have any problems with the electronic system, please contact our ETIS helpdesk [etis@etag.ee](mailto:etis@etag.ee), or call +3727 300 373. In case of any major problems we can always send the

materials by e-mail.

We would greatly appreciate if you could complete the evaluation at your earliest convenience but no later than August 21<sup>st</sup> this year. If you do need some more time for submitting your review, please let us know.

Best wishes  
Rainer Randmeri

Dear Prof. Martins,

The Estonian Research Council (ETAG) hereby kindly invites you to contribute your very valuable expertise to the assessment of personal research funding submitted to ETAG.

ETAG is the sole provider of financing for basic research in Estonia, both for research teams and individual researchers, on the basis of open public applications.

ETAG would be very grateful if you agreed to assess the following application:

“Closed-loop communication system to support highly responsive neuromuscular assistive stimulation ”  
submitted by Muhammad Mahtab Alam.
